

PIN and Schottky Diode

Product Selection

Introduction

Agilent Technologies Inc., a leading provider of innovative technologies for communications and life sciences, has the broadest product offering of surface mount Schottky and PIN diodes available today. Agilent uses a first-in-class wafer fab to ensure repeatability from wafer to wafer.

About the Products

The Agilent HSMS-2xxx and HMPS-xxxx series of Schottky-barrier diodes provide the most consistent performance available. These diodes feature low turn-on voltage (as low as 0.34 V at 1 mA).

The Agilent HSMP-386x and HMPP-386x series of general purpose PIN diodes are designed for attenuator applications, where current consumption is the most important design consideration; and for RF switching, where low capacitance with no reverse bias is the driving issue for the designer.

The Agilent HSMP-389x and HMPP-389x series of RF PIN switch diodes are optimized for switching applications where low resistance at low current combined with low capacitance is required. Low junction capacitance of the PIN diode chip, combined with ultra-low package parasitics, mean that these products may be used at frequencies which are higher than the upper limit for conventional PIN diodes.

Product Performance

- State of the art wafer fab
- Library of models available on the web
- Excellent reliability data

High Volume Manufacturing

Whole Product Offering

- Datasheets
- Application notes & support
- Samples and design tips

Features and Benefits

Features of Agilent's diodes include:

- Wide range of surface mount packages
- Available in many different configurations
- Products that cover a broad frequency range
- High-volume manufacturing

Benefits of using Agilent's diodes;

- Broad market appeal
- Design tools and data on the web

Typical Applications

Schottky-barrier diodes for applications including:

- Mixers
- Detectors
- Clipping and clamping

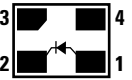

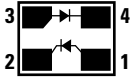

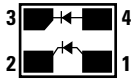

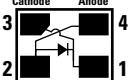

PIN diodes for applications including:

- Attenuator
- Switches
- Limiters

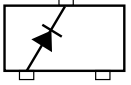

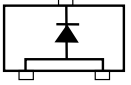

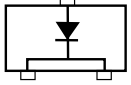

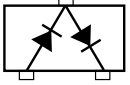

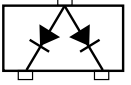

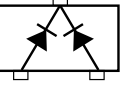

Agilent Technologies

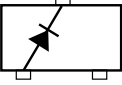

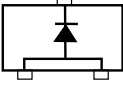

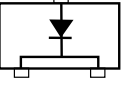

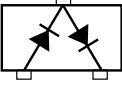

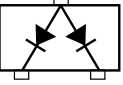

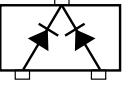

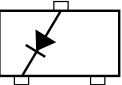

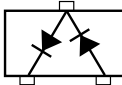

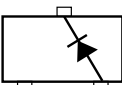

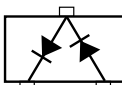

MiniPak

	Single	Anti-parallel	Parallel	Shunt Switch
Configuration	 (0)	 (2)	 (5)	 (T)
PIN	HMPP-3860	HMPP-3862	HMPP-3865	
	HMPP-3890	HMPP-3892	HMPP-3895	HMPP-389T
Schottky	HMPS-2820	HMPS-2822	HMPS-2825	

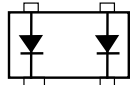

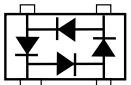

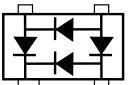

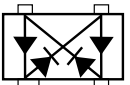

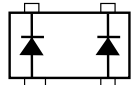

3 Lead Diodes SOT-323 (SC-70)

	Single	Dual Anode	Dual Cathode	Series Pair	Common Anode	Common Cathode
Configuration						
PIN	HSMP-381B		HSMP-481B	HSMP-381C	HSMP-381E	HSMP-381F
